THE EASIEST AND

CHEAPEST ROUTE

-- TO THE --

SKAGET MINES

IS BY THE WAY OF

VICTORIA, B. C.,

THENCE BY STEAMER TO

FORT HOPE

— OR —

CHILLIWHACK

ON THE

FRASER RIVER,

Which is about 50 Miles from Ruby Creek, the Centre of the Skaget Mines.

NO ROCKY BLUFFS OR DANGEROUS TRAVELING ON THIS ROUTE.

Ruby Creek can be reached when the season opens in FOUR DAYS from Victoria. Hotel accommodations as cheap as anywhere on the Coast.

A RELIABLE STEAMBOAT CO.

Advertises to carry Passengers, including 200 pounds of Goods or Baggage,

FROM VICTORIA TO FORT HOPE FOR $5 EACH.

NOTICE.

THE UNDERSIGNED WILL TRANSPORT

GOODS AND MERCHANDISE

From VICTORIA to RUBY CREEK (such as can be packed on Mules when the season opens)

AT 12½ CTS. PER POUND.

Miners' Packs and Merchants' Goods from the American side, destined for Skaget Mines by this route, may be Bonded without Extra Charge if shipped by way of Victoria and the Boundary Line.

fe20dw U. NELSON.

NOTICE.

TO SHIPPERS AND OTHERS.

THE UNDERSIGNED IS PREPARED TO TRANSport freight from Victoria, B. C., to

NEW WESTMINSTER, FORT YALE

And all Way Ports, as soon as the river is clear of ice, with the Steamers

WESTERN SLOPE & GERTRUDE.

Connecting with the

STEAMERS OF THE PACIFIC MAIL COMPANY

from San Francisco. All passengers and Shippers of Freight destined for the Upper Country will find it to their advantage to ship by the Pacific Mail Steamship Company, as the steamer Western Slope will make close connection with the above line at Esquimalt or Victoria and by shipping by the above line they will save time and money, as the goods will only be handled once from the time they leave San Francisco till they reach their destination.

THE STEAMER GERTRUDE, 301 TONS

Gross tonnage, fast and powerful, fitted with eight water-tight compartments, and light draft.

THE WESTERN SLOPE, 831 TONS

Gross tonnage, built expressly for the trade between Victoria and Fort Yale, fitted with large and powerful engines and boiler, also water-tight compartments and was launched last May, 1879.

Special attention is called of

CATTLE DEALERS AND RAILROAD CONTRACTORS.

The Western Slope is capable of carrying 175 head of cattle, in pens not exceeding 15 head in one pen.

From the 1st of April till the 1st of November cattle which will be taken through from Fort Yale or Hope to Victoria in from 9 to 13 hours without transhipment at New Westminster.

RAILROAD MATERIAL can be taken without transhipment at New Westminster of any size or weight that may be shipped here by ocean steamers or sailing vessels.

BOUND FOR THE SKAGET GOLD FIELD

By way of Fort Hope Trail, which is by far the cheapest and quickest route. The undersigned will carry passengers from Victoria to Fort Hope for $5, including 200 pounds of provisions or baggage.

Tickets can be had of E. B. Marvin, Wharf street. The Gertrude will run as soon as there is a passage through the ice.

From and after the 1st day of January Special Contracts can be made.

For further particulars apply to

Daily Colonist.

FRIDAY MORNING, MARCH 26TH, 1880.

L. P. FISHER, 20 and 21 New Merchants Exchange, is our authorised Agent in San Francisco.

MANGLING A JUDGE'S CHARGE.

We can imagine nothing more cowardly than for a party press—carried away by a desire to assist its political mentors—to wilfully distort the charge of a Judge to a jury. The garbler knows that from the very nature of his position the occupant of the Bench will not descend to newspaper polemics; and except in cases where to refrain from explanation would be to damage the public interests or the standing of the Judiciary or his own honor, a Judge rarely addresses the public through the medium of the press. The controversy that has arisen over the charge of Mr. Justice CREASE to the Grand Jury upon the Kamloops murder trials furnishes an instance where the presiding Judge, not feeling that his personal integrity or that of his brothers on the Bench has been impugned, or that through the distortion of his charge the interests of justice are likely to be affected, remains silent; and had the infatuated scribe of the N. W. *Herald* possessed sufficient common sense to hold his peace and not provoke a controversy it is possible that his shameful attempt to turn a solemn charge into a judicial endorsement of his employers' neglect of duty would have passed unnoticed. But emboldened by his first success the luckless wight called attention to his own misdoings in time to defeat his object. In charging the Grand Jury Mr. Justice CREASE made use of the following words:

"Ask yourselves is it a magistrate the less or a constable the less at Kamloops that has caused or could have prevented these murders. Look deeper."

Exactly as spoken the above words appeared in *The Colonist;* but as the quotation appeared in the *Herald* the learned Judge was represented as having said it was "absurd" to say that a constable the less or a magistrate the less could have prevented the outrages. To the introduction of the word "absurd" into the report we objected, because it was never uttered. The reader will understand that had it been used the Judge would have placed himself in the position of a political partizan, and would have rendered himself liable to criticism if not censure. Of course everyone who has watched their proceedings will understand that to the Government press it made little difference whether the word was used or not. It suited their purpose to claim that it was employed; and they imagined, too, that the peculiarity of the position of the Judge rendered it unlikely that he would again refer to it. Fortunately, in charging the petty jury Mr. Justice CREASE had occasion to quote from the charge to the Grand Jury the passage exactly as it was reported in *The Colonist.* This should have settled the point; but the *Herald* continues to contend that the word "absurd" was used and produces as a reliable witness—who does the reader think? Nor less nor more than its co-worker in the governmental vineyard—the *Standard!* Yes; even the report of the reliable, unbiased, unprejudiced, unpurchasable, virtuous Government organ in this city is dragged into the arena to prove that Judge CREASE employed a word that he did not use, and gave the Government, who supplies it with advertisements by the yard, a character. A more disinterested witness could not have been produced, we admit; but if we felt disposed to pursue the *Herald's* line of argument we might claim that the weight of evidence is on our side, for the learned Judge himself and the *Guardian's* report are in accord with us. But such is not the object of this article. We write now to protest against the attempt of the organs to whitewash the Government at the expense of the Judiciary—to secure a certificate of good conduct by a resort to the base means of garbling a solemn charge to a jury who were about to consider the most melancholy case that has ever come before the courts of this country. The learned Judge was not there to try the Government. The Government were not at the Bar—although the evidence shows that they should have been; and had he gone out of his way to anticipate the popular verdict it would have been in the highest sense improper. We are happy to know that he refrained from expressing any opinion; and because the hired organs of the Government agreed to distort the charge in the face of the strongest possible testimony to the contrary, the distortion cannot be accepted as correct. Indeed, we have reason to believe that the *Standard's report was "cooked" to support the Herald's version* by a person in attendance on the Court;—of which more anon. The fact is the organs put their heads together to shield the Government from the consequences of their neglect, and seized upon the Judge's charge as a windfall. They "doctored" it—no, they performed a surgical operation upon it and so mangled it in the process that its author must have experienced considerable difficulty in recognizing his own charge after it came from the hands of the unskillful sawbones.

A LEAP YEAR SOCIAL will be given by the ladies of Perseverance Lodge, I.O.G.T., in Central Hall, View street, on Friday evening the 26th inst. There will be speeches, recitations, dialogues, etc., etc., by the ladies exclusively. Refreshments will also be served. Admission 25 cents; to commence at 7:30. *

SHORE & Co., the family grocers, corner Douglas and Cormorant streets, have removed to the brick premises of Mrs. Hodges, corner of Douglas and Pandora streets. A large stock of choice goods always on hand. *

Morning Dispatch.

RUSSIA.

ST. PETERSBURG, March 23.—The president of the administrative council of Eastern Siberia having reported the pressing necessity for new prisons, owing to the great influx of political prisoners during the past year, additional prisons will be constructed immediately on the river Ivanofka.

CALIFORNIA.

SACRAMENTO, March 24.—There have been several reports at the capital on the probability of an extra session, but inquiry at the Governor's office this noon elicited a reply that under no circumstances will Governor Perkins convene the Legislature in extraordinary session.

SAN FRANCISCO, March 24.—The month allowed by the Board of Health to abate nuisances in Chinatown expires to-day. It was reported that Chinatown was never so clean as at the present time, all rubbish having been removed from the houses, walls whitened, streets and alleys cleaned, cellars purified and the regulations against overcrowding enforced. The Chinese Consul, with Vice-Consul Bee, last night made an inspection of the Chinese quarter.

A SCENE IN THE COMMONS.

Mr. Bright's Objection to "Private Strangulations"--Rejection of Sir Wilfrid Lawson's Annual Motion.

LONDON, March 5.—Quite a scene occurred this afternoon in the House of Commons. Right Hon. Assheton Cross, Home Secretary, replying to a question of Mr. Hibbert, respecting the execution of criminals, said that the executions in prison were in the hands of the Sheriff. Hon. John Bright protested against the executions being made private strangulations. Secretary Cross rebuked Mr. Bright for interrupting the business of the House, and Lord Hartington, interrupting, objected to Mr. Cross lecturing Mr. Bright. Mr. Gladstone finally succeeded in appeasing the angry debaters, and the discussion terminated.

The House of Commons this afternoon, by a vote of 248 to 134, rejected Sir Wilfred Lawson's local option or anti-liquor resolution.

From a Well Known Physician.

ROCHESTER, N. Y., October 5th, 1879.

H. H. WARNER & Co.—GENTLEMEN.—Without solicitation I desire to express to you my high appreciation of your remedy, known as Warner's Safe Kidney and Liver Cure. Some time since my attention was called to a gentleman who had for a long time been a great sufferer. After making a thorough examination of the case I found that his kidneys and liver were badly affected. Not without hesitation I prescribed your Safe Kidney and Liver Cure. The result, after taking two bottles, has been satisfactory in the extreme. Without hesitation, I would now subscribe the same remedy to all similarly afflicted. Yours truly,

R. CAULNINS, M. D.

The above you are at liberty to publish if you choose. *

THE NEWEST GOODS.—The undersigned has just received a large invoice of Custom-made Clothing for the Spring Trade of the latest styles, which will be sold at a small advance on cost. Call and examine and you will be sure not to purchase elsewhere. Skaget Miners' outfits. D. GREEN, Government street opposite *The Colonist* office. *

A BYLAW

TO FURTHER AMEND THE POUND BY-LAW, 1878.

WHEREAS it is expedient to further amend the City Pound Bylaw;

BE IT ENACTED BY THE MAYOR and Councillors of the City of Victoria as follows:—

Notwithstanding anything contained in the Victoria City Pound Bylaw, 1878, it shall be lawful for the Mayor and Council, by such person as they shall by resolution appoint, upon the application of any person residing within the City of Victoria and owning or keeping within the limits of the said City a dog or dogs, to issue to such person a license entitling such person to permit his dog or dogs to run at large within the limits of the City of Victoria aforesaid. Such license shall be granted so as to terminate on the thirty-first day of December in each and every year, and shall be issued to such person on payment by him of the sum of two dollars.

2. It shall be the duty of the Collector, or other officer or servant of the Corporation duly authorized by resolution for that purpose, on issuing the said license to register in a book to be kept for that purpose a description of the dog in respect of which such license shall be granted and the name of the person to whom such license shall be delivered. And the officer or servant of the Corporation issuing such license shall at the same time deliver to the applicant therefor a metal badge or tag stamped with the year in which such badge or tag shall be issued and a number corresponding with the number of the record of the issue of the license issued in respect of such dog.

3. The owner or keeper of any dog in respect of which such license shall be issued as aforesaid shall cause a collar to be constantly worn by such dog, with the metal badge or tag mentioned in section two of this Bylaw attached thereto.

4. No dog shall be permitted to go at large in the City of Victoria unless such dog shall wear a metal badge or tag to be used under the provisions of this Bylaw, and in case any dog shall be found loose or going at large as aforesaid contrary to the provisions of this Bylaw the owner or keeper of such dog shall forfeit and pay a fine or penalty of not more than twenty dollars, to be recovered in the manner provided for in the tenth section of "The Victoria Revenue Bylaw, 1879."

And notwithstanding the imposition of any fine under the provisions of this Bylaw, such dog shall be liable to be impounded and dealt with in all respects in the same manner as if this Bylaw had not been passed.

5. On complaint being made to the Collector of Taxes of the City of Victoria of any dog kept within the City limits habitually disturbing the quiet of any person or persons whomsoever by barking or howling, or endangering the safety of any person by biting or otherwise, the Collector of Taxes on such complaint shall issue or cause to be issued notice of such complaint to the owner or person keeping such dog and shall cause such person to remove or destroy such dog within three days after the service of such notice upon such person. And if any person upon whom any such notice shall be served as aforesaid shall neglect to remove or destroy such dog within the period limited in such notice, he shall incur a penalty not exceeding the sum of twenty dollars, to be recovered by way of summary proceedings before any Justice of the Peace having jurisdiction within the City limits, and payment of any fine imposed under the provisions of this section may be enforced in the manner provided in the tenth section of "The Victoria Revenue Bylaw, 1879."

Provided always that such Justice of the Peace shall be satisfied by proper evidence that such dog had in manner aforesaid habitually disturbed the quiet of any person or persons in the City or had endangered the safety of any person or persons in the said City by biting or otherwise.

This Bylaw shall be read in connection with and form part of the Victoria City Pound Bylaw, 1878, and may be cited for all purposes as the Pound Bylaw Amendment Bylaw, 1880.

Passed the Municipal Council this seventeenth day of March, One thousand eight hundred and eighty.

BRITISH COLUMBIA JUDGES.—The bill providing salaries for two new Judges for British Columbia was advanced a stage this afternoon. Mr. Blake made a suggestion which was understood to be to the effect that the Dominion Government should decide as to the residence of the additional judges. The Minister of Justice, with great apparent reasonableness, refused to dictate to British Columbia how its judges should be placed, that being a matter for the consideration of the Province most interested. The bill would have gone through a third stage had not Mr. Mackenzie's desire to make a speech led him to object to it. Accordingly, the bill was read a second time, and stands for its third reading on Monday last *Mail*.

MARINE.—The barkentine Malay, Capt. Love, 14 days from San Francisco bound for Departure Bay for a return cargo of Wellington coal, arrived in Royal Roads yesterday morning. During the first two days of the voyage she experienced strong N.W. gales and during the next seven days she had light northerly winds. Subsequently the wind veered round to the S.E. and for the remainder of the passage the weather was very dirty. The Malay left last evening for Departure Bay in tow of the steamer Beaver.... The ship Carl Hendric, from San Francisco, has arrived at Burrard Inlet in tow of an American tug. She is chartered to load lumber for Valparaiso.

FOR THE SKAGET GOLD REGION.—A party of miners bound for Skaget arrived here on Wednesday from California per steamship City of Chester. Yesterday they were busily engaged purchasing their outfits, which they secured at very moderate prices, and this morning they will leave for the mines *via* Fort Hope, the reports they have received concerning that route having fully convinced them that it is much more practicable than the route by way of Death's Head and Sourdough. They will take their supplies over the boundary line free of duty.

SETTLED IN FULL.—We are gratified to be enabled to announce that the firm of Oppenheimer Bros., which last summer were compelled by the hardness of the times to suspend payment, have arranged with all their creditors on the basis of 100 cents on the dollar with interest. The estate will be handed back to the firm in a few days. This is a most comfortable arrangement for the creditors, and speaks well for the business tact and energy of the firm in pulling through after a disaster the effects of which seemed at the time irreparable.

OREGON.—Stock is perishing in Oregon in large numbers, the graziers there being almost as badly off as those of our own Province. Some of the animals have been fed pretty well, but being without shelter from the severity of the storms, could not survive on half rations. A writer from Lake county says: "This has been a very severe winter, and we as yet have no indication of its releasing us from its icy embrace."

FROM PUGET SOUND.—The steamer Isabel, having been detained by heavy head winds at Port Townsend did not arrive here until 7 o'clock last evening. She had on board thirty-seven head of cattle for Vanvelkenburgh & Co., 15 head for R. Porter, a small quantity of miscellaneous freight, the overland mails and a dozen passengers, amongst whom were Miss Cameron and Mr. Barton Hill.

GEN. GRANT—Mr. Geo. Wm. Curtis, editor of *Harpers Weekly*, is of opinion that if Gen. Grant is nominated he will be defeated and the Republican party disorganized.

Disappearance of an Inventor.

A young Canadian named Chasse, who claimed to have invented a multiplex method of telegraphy, has disappeared mysteriously. He was in Hartford, Conn., engaged in experimenting and was about to sell his invention for $1,000,000. Two days before a final test was to have been made the inventor left to prepare the necessary instruments in New York for use at one of the termini. This was the last that has been seen of him by any member of the company. A Mr. Dugal, who had placed the utmost confidence in him and had neglected his own business in the city for ten months to be present with him at Hartford, expecting, as well as every other member of the company, to realize a handsome fortune by the invention, returned about a fortnight ago to find his stock and furniture all seized by his creditors and about to be sold out by order of the Insolvent Court. Up to the present nothing whatever has been heard of Chasse's whereabouts. It is rumored that after Chasse's departure an investigation of the operating room and tables showed that he had skilfully laid 18 different wires under the flooring. It is but fair to say that Mr. Chasse's friends stoutly deny the explanation of his invention as given in the above extract, and the members of the company who put the largest amount of money into the concern still have hopes that he will turn up all right and prove his words to them respecting his multiplex telegraph.

The Water Works.

The City Council, accompanied by the Commissioner and Superintendent of the Water Works and the City Surveyor, paid a visit yesterday to the dam at Beaver Lake. An inspection of the works disclosed the fact that the bed of the west filter consists of solid rock with the exception of one corner, which appears to have been the only part used for filterage. In order to render the bed fit for proper filtration this rock will have to be blasted out and it has consequently been determined to employ half-a-dozen competent men to perform the work. The dividing wall was found to be in a thoroughly rotten and dilapidated condition throughout its entire length—139 feet—the material of which it is constructed crumbling easily between one's finger and thumb. The number of men found employed in various capacities about the works was sixteen.

COLUMBIA RIVER BAR.—The point on which Fort Stevens stands at the entrance to Columbia river is being rapidly washed away, and should it disappear the navigation of Columbia river bar will be at an end. The *Astorian* mentions that the channels are rapidly filling up and adds: "Captain Flavel has been making personal inspection of bar soundings for several days, since his return from San Francisco, and is himself fully satisfied that it is only a question of very brief time, so rapid and broadcast is the shoaling process, when it will be impossible for deep vessels to cross. The north channel along Sand island from the head is filling up as fast as does the south channel."

DEATH OF CAPT. CONNOR.—Capt Connor, the oldest steamship captain on the Coast, died of congestion of the brain. He ran in vessels on the northern route for thirty years, and never met with a disaster. His first command was the steamer Goliah, now a Puget Sound tugboat, which ran once a fortnight between Portland and San Francisco, and answered all the requirements of that then infant trade. Twenty years and more ago Capt. Connor commanded a steamship that ran between Victoria and San Francisco. Latterly he has been in command of the new steamship Oregon running to Portland.

ESQUIMALT POLICE COURT.—At this Court on Wednesday last a man named William Lindsay was brought up on a charge of stealing a canoe from an Indian woman residing at Sooke. The evidence adduced showed that the defendant had lived in the woman's house for two months, and after bringing her to the Songish Indian reservation in the canoe, landed her and brought the canoe over to this city and kept it in his possession. The defendant was fined $20 and costs. It is stated that tht decision of the committing magistrate will be appealed from on points of law.

FISHERMAN'S LUCK.—The fishermen at Astoria, Columbia river, numbering 250 men, will demand 60 cents per salmon for the season of 1880, or 40 cents per salmon for the men who run cannery nets. Commenting on this action a correspondent says: "The men are now in very needy circumstances, caused by Chinamen being employed making nets all winter, and as our condition cannot be much injured by laying off all spring, if we don't get our price, we can stand it."

GOOD FRIDAY.—The Right Reverend Dr. Ridley, Bishop of New Caledonia, will preach this evening at Christ Church Cathedral. His Lordship, who was one of the earliest promoters of the Church of England Temperance Society, has chosen Temperance for the subject of his sermon Divine service will also be held at other churches in the city.

AQUATIC. — Arrangements were completed yesterday afternoon for the double-oared race between Handers and Smith of San Francisco and Cotsford and Clarke of this city. The event will take place over the usual course in this harbor on April 24th for $300 a side. The men will go into active training at once.

COMMITTED TO THE ASYLUM.—The boy Bittancourt *alias* Antoine, who attempted to set fire to Mr. S. Whitley's premises on Fort street last Sunday evening, underwent a medical examination before Drs. Helmcken and Davie yesterday. He was pronounced to be of unsound mind and will leave here this morning for the Lunatic Asylum, New Westminster.

THE schooner General Harney, Capt. Lloyd, arrived here yesterday from Port Townsend with 96 sheep, 19 tons of hay, 3 tons of potatoes and a quantity of barley and oats for Messrs. Goodacre & Dooley of the Queen's Market. Approximate value of cargo, $830.

EASTER HOLIDAYS.—Notwithstanding the severity of the present season we have much pleasure in informing our customers that the choicest of meats comprising spring lamb, stall-fed beef from Strawberry Vale Farm, and the best of veal, pork, etc., are to be had at Queen's Market. GOODACRE & DOOLEY. *

SKAGET MINES.—Miners return almost daily from Ruby Creek to Seattle. The *Intelligencer* says they all tell the same story of good prospects. Six hundred claims have been taken up and 300 men are in the diggings.

ONLY one case of d. and d. at the police Court yesterday.

The Anti-Chinese Law Inoperative.

A decision in the *habeas corpus* case of Parrott was rendered by Judge Hoffman at San Francisco on the 22d inst., which, in effect, declares the anti-Chinese law enacted by the present Legislature in Sacramento to be in conflict with the United States treaty with China and the Constitution of the United States. In rendering his decision the Judge quoted an unusual number of authorities. He said that if the right of the Legislature to restrict corporations in the manner intended by the law in question should be admitted, there would be no limit to the harm which might be accomplished. The Chinese are here and are granted the benefits of trade or travel by solemn treaties which are enjoyed by any other foreigners. If the Legislature has power to declare that corporations shall not employ Chinese they possess the same right to declare that Germans, Irish or Americans shall not be so employed.

Montreal Heard From.

MONTREAL, September 27, 1979.

MESSRS. H. H. WARNER & CO.—DEAR SIRS;—I was afflicted for many years with terrible suffering which arises from dyspepsia. My physicians gave me no relief and much against my will I was induced to give your Safe Bitters a trial. It gives me great pleasure to inform you that my health is completely restored, though I have but taken four bottles; my appetite is good and I now suffer no inconvenience after eating hearty meals, while before nearly everything I ate caused me great distress and uneasiness. I can cheerfully recommend your Bitters to all.

* R. L. MOSLEY.

DRAMATIC.—Miss Josephine Cameron and Mr. Barton Hill, a lady and gentleman who have won a high reputation in the theatrical world, arrived last evening and are staying at the Driard House. They propose, assisted by Mr. T. F. Barnes, a distinguished amateur, to give at Theatre Royal a series of readings and selections from "Macbeth," "Our American Cousin," "The Honeymoon," etc. Miss Cameron will take the part of Lady Macbeth, Juliana, and Georgina. Mr. Hill will personate Macbeth, Duke Aranza, and Lord Dundreary, characters in which he excels. Mr. Barnes will play the Mock Duke and Asa Trenchard. In Oregon and on Puget Sound these entertainments have been largely patronized. They belong to the highest order of merit, and will, we doubt not, meet with just appreciation here.

THE wrecked bark Dilharree, at the mouth of the Columbia, has been sold for $120. Her value and the value of her cargo were $130,000. Less than one-tenth of one per cent. of the combined amount was realized at the sale. A bad loss, truly.

PASACH.—The Jewish Feast of the Passover—Pasach—commences this evening, and will continue during the ensuing eight days.

A BASE ball match will be played at Beacon Hill to-day.

THE Origina Surprise Party at Theatre Royal to-morrow evening.

The Pacific Railway.

OTTAWA, March 5th.

Mr. McLennan moved for a statement of each contract let up to 31st December, 1879, on the Pacific railway. He made the motion, he said, with a view of directing the attention of the House and the Government to what he considered to be the great laxity which had been shown in carrying out the expenditure and construction of the road, as disclosed at the investigation by the Public Accounts Committee last session. He thought a great mistake had been made by the overturning of the first project for building the road by a subsidy of money and of public lands. But as that project had been overturned, the country would have to do the best it could with the scheme as at present under construction. A remarkable fact in connection with the expenditure already made was the difference between the ultimate expenditure and the estimate upon which the work was commenced. On contract 35 there was an increase of 32 per cent. in quantities over the estimates, or a difference of $147,000. On No. 14 the increase of the work over the estimates was 80 per cent., or a difference of $319,000. On No. 15 the addition of work was most extraordinary. The expenditure exceeded the estimate by 60 per cent. or by the large sum of $900,000. This last increase it was stated in the report of the Public Accounts Committee, was caused by a change of location, which had not been authorized by the head of the Public Works Department. It was also shown that while these changes were being made, the Chief Engineer was absent from the country. The entire report of last session's investigation showed that there was insubordination in the engineering staff. The Chief Engineer stated that he was not under salary, though he expected to be rewarded for his services. In his (Mr. McLennan's) opinion, the engineer should be the paid servant of the Government if he did not occupy that position. Probably he was one of that class of architects and engineers who lured their clients into excessive expenditures, and then, after almost ruining them, demanded a very high commission; in this case he was afraid the Engineer would not get a commission, for by the time the road was completed it was a question whether there would be any funds left. He gave the present Minister of Railways credit for improving the method of laying out the work, but still it was unfortunate that the country had commenced to begin a first-class road instead of a colonization road. The ex-Premier (Mr. Mackenzie), in speaking in 1879 on the subject of the railway, expressed the gratification that every step he had taken had been with the entire concurrence of the Chief Engineer. This was a strange statement to come from the hon. gentleman, and it would have been better had he said that every step he had taken had been with the full concurrence of the House.

Sir Charles Tupper—As the Chief Engineer had been the subject of censure by the hon. gentleman, the House would no doubt listen to a few remarks regarding him. The employment of Mr. Sandford Fleming arose in this way: In 1862, the delegates representing Nova Scotia and New Brunswick arranged with the Imperial Government for the construction of the Intercolonial railway, and it was agreed that the work should be entrusted to an engineer appointed by the Imperial Government, an engineer appointed by Canada, and an engineer appointed by New Brunswick and Nova Scotia jointly. Under that arrangement, the Hon. John Sandfield Macdonald, then Prime Minister of Canada, said he would appoint, on behalf of Canada, Mr. Fleming. New Brunswick and Nova Scotia had such confidence in that gentleman, that they said they would agree to appoint him also, and the Imperial Government followed in the same course, so Mr. Fleming was engaged to construct the Intercolonial. When the Canadian Pacific railway was to be commenced, the Government asked Mr. Fleming to undertake the duties of Chief Engineer of that enterprise. As to the question of salary, he might say that, as Chief Engineer of the Intercolonial, Mr. Fleming received $4,800 a year. The salaries of Ministers in those days were only $5,000, and, when Mr. Fleming took charge of the Canada Pacific, it was not thought proper to make his salary higher than that of the Prime Minister of the country. He, therefore, undertook the duties of engineer of both railways without an increase in his salary. When the Intercolonial was completed in 1876, he resigned his position as Chief Engineer of that road. Reference had been made to the absence of Mr. Fleming from the scene of his duties, but he was granted leave of absence by the late Government, because his health had completely broken down. Since then the question of salary had remained in abeyance. The hon. member (Mr. McLennan) had said there had been great extravagance. But everyone who was familiar with the construction of great works, no doubt knew that away into the North-West expenditures were of necessity incurred which the Minister could not control. The hon. gentleman had also referred to the great disparity between the estimates from certain portions of the work and the actual expenditure. He (Sir Charles) must say that he did not himself understand it. Neither, he thought, did they. He believed, however, that the difficulties of the country had rendered it impossible for the engineers to make an accurate estimate of the probable expenditure. Of the 185 miles recently let between Winnipeg and Lake Superior, a great deal of information had been gained. In fact he (Sir Charles) twice postponed the period for receiving tenders because the information gained had been insufficient. He thought, therefore, that the expenditure on the 185 miles would not exceed the estimate. Having said this much, he might remark that he was somewhat surprised at the strictures of the hon. member. He (Sir Charles) did flatter himself that, having employed himself with the utmost assiduity to this work, having endeavored to push it forward rapidly and economically, that he would have been exempt from such strictures as those of the hon. gentleman. But, before touching on that point, he would say regarding the excess of expenditure on Section 15 that that increase had been incurred by the construction of embankments instead of trestle work, which was estimated for. In his opinion, however, the change was in the interests of the public service and economy.

Mr. Mackenzie defended his action towards engineers and said that he thought Mr. Fleming occupied an anomalous position in not having a fixed salary. Mr. Fleming possessed great ability as an author as well as an engineer, but he was not prepared to endorse all that had been done on Mr. Fleming's recommendation. During five years, however, he had seldom differed from Mr. Fleming. He had discussed with his engineers the policy of carrying the railway north or south of Lake Manitoba. His first opinion was to go through the most thickly settled portion of the country, but, subsequently he favored the northern route. There was now, no doubt, that Mr. Fleming's recommendation that the line should pass by the Narrows of Lake Manitoba to Livingstone, and thence on to the mountains was the best. He alleged that the Government's action would have the effect of making more difficult grades, and he would prefer increased length to such a change. The result of the high grades would be to enormously increase the cost of transport, and if the route north of Lake Manitoba had been adopted the grades would have been light. The route south of the Lake had, however, been finally adopted. He was much struck with a paragraph in Mr. Fleming's report indicating that the line south was only intended to be a light temporary colonization road. If such were the intention, a great mistake had been made, and if it was intended to build two lines there was serious objection to this course, as it would involve the expenditure of money of the whole people, to furnish immediate facilities for certain settlers in the Province.

It being six o'clock the Speaker left the Chair.

A Scheme of Reckless Profligacy.

LONDON, March 6.—The Government Bill to buy out all the London water companies supplies the sensation of this week. The reckless profligacy of Mr. Cross' financial proposals has been both preceded and followed by a gigantic speculation in shares, which assumes proportions of unprecedented scandal. The Government pledge to adhere to the market price of shares last summer has been shamelessly broken. For £9,000,000 in stocks, worth last summer £17,000,000, the Government agrees to pay £30,000,000. Since August, and before the terms of the bargain were known, shares rose on an average 30 per cent. Since Tuesday there has been a further rise of 40 per cent., showing that the Government agrees to give 70 per cent. above the actual value. The *Economist* says that, everything considered, the shareholders get nearly twice the valuation of the property. The press, which generally hesitated at first, now denounces the scheme. The Ministerial organs even condemn it. The *Standard* says, "The evidence is unanswerable that the Government is squandering public money." Even the *Daily Telegraph* takes the side of virtue and says the measure, unless modified, must be abandoned. The strong opposition which has been organized alarms the speculators. Prices were receding yesterday and to-day. A single house is reported to have gained £800,000 ($3,380,000). There are numerous shareholders among members of Parliament, especially in the Liberal ranks, but full enquiry is to be demanded, although the proposal is certain to meet with determined resistance.

Cetewayo as an Historian.

Some time ago the *North American Review* opened its pages to the Indian Chief Joseph and allowed him to tell, in his own fashion, his story of the difficulties in which his tribe was involved with the United States Government. Chief Joseph, the readers of the article will remember, put in a very able plea from the aboriginal point of view, and his contribution to current literature was as interesting and characteristic as it was novel. *Macmillan's Magazine* follows the precedent thus set, and in its February issue gives the first place to a story of the Zulu nation and the war, as told by Cetewayo, the captive chief himself. The narrative has been taken down from the lips of Cetewayo by Captain Poole, of the Royal Artillery, who brought the ex-King from Zululand to Capetown, and now has him in charge there. It represents the substance of a number of different interviews, and contains nothing except in the form of notes, plainly distiuguished from the text, which was not received direct from Cetewayo, through a trusty interpreter. The story lacks the dignity and poetry of Chief Joseph's plea, but it is a simple, unaffected and seemingly truthful history, containing no braggadocio and no repinings. The first half of it is taken up with an account of affairs before the accession of Cetewayo, and its historical value is impaired by the fact that the Zulus are incapable of expressing dates, and have very vague ideas of numbers. We get a glimpse of Cetewayo's discipline in an incident which occurred shortly after his accession. He had called up his army, but when they had paraded they were found to be weak, and many absentees sent in word that they could not come because they were sick. Cetewayo thereupon called out a regiment, and sent men down to the different kraals, and all the absentees were slain—the chief remarking that he would save the doctors the trouble of attending to their cases. In 1878 the young Zulus were very restive and quarrelsome, and proposed a raid into Swaziland solely for the purpose of having a war. They were especially hostile to the Boers, and Cetewayo admits that if the Transvaal had not been annexed by the English, war between the Boers and the Zulus would have been only a question of time. There was no hostility to the English among the Zulus, and Cetewayo says he was ready to pay the fines imposed by the ultimatum, but that nothing would have induced him to consent to the disbandment of his army. He sent messengers to Lord Chelmsford to explain his intentions and difficulties, but before his messengers reached their destination the English had crossed the border and war had begun. Cetewayo immediately called out the whole of his army, and sent out three armies to meet the three English columns, while he gathered a large reserve force at Ulundi. His hope was to crush the English columns, drive them out of the country, defend his border and then arrange a peace. He knew that the English in Natal could not bring a very large force into the field, and he hoped to bring the war to a conclusion before reinforcements arrived from England. He aimed to keep entirely upon the defensive, and for this reason did not avail himself of the tempting opportunities which offered for raids into Natal, which would have been popular with his soldiers. He admits that the battle at Isandhlwana, which resulted in the annihilation of an English column, caused a very heavy loss to the Zulus. It was ten days before the Zulu force which was engaged returned to Ulundi, and then only a small part appeared, the rest having gone to their homes with their wounded or their plunder. This incident illustrates the difficulty which chiefly embarrassed Cetewayo, that of holding his army together after an engagement, even when the engagement was a successful one. The battle at Kambula was premature, and was occasioned by the insubordination of a regiment which insisted on attacking and compelled the rest of the force to support it. After this Cetewayo realized that his cause was hopeless, and sent peace messages to Lord Chelmsford, but his people insisted on fighting. Cetewayo was not present at Ulundi, but was informed of the result there by men on the lookout, and immediately retreated. The story of his flight and capture is simply told. Cetewayo knew nothing of the death of the Prince Imperial until he received a message from Bishop Colenso and Lord Chelmsford. He then procured the Prince's sword and sent it to Chelmsford.

HALIFAX, March 6.—The exodus to the United States continues. Reports from all parts of the Province speak of active young men leaving or preparing to leave. One paper says that $1,000 in cash were received at the Amherst Station of the Intercolonial Railway on one day for tickets to the Western States. Amherst is the chief town of Sir Charles Tupper's county.

The gold mines of Nova Scotia are yielding very large quantities of the precious metal, and a large number of new mines are expected to be put in operation in the spring.

OTTAWA, March 7.—The report of the Judicial Committee of the Canadian Privy Council disputes Prince Edward Island's claim to any portion of the Fishery Award, because that Province was part of the Confederation at the time the settlement of the question was affected.

Sir Alex. Galt is to start on his mission to England on the 26th inst., so that it is likely the Government Bill on the question will be brought down in a few days.

OTTAWA, March 10.—The report of the Department of Inland Revenue on the adulteration of food shows that during the year 896 samples have been analyzed, of which 235, or a little more than 26 per cent., were adulterated, and 42 returned as doubtful. Compared with previous years, there is a perceptible improvement. In 1876 the percentage of adulteration was 51.66 per cent.; in 1879 it had fallen to 26.22 per cent.

Bishop Binney, of the English Church, Nova Scotia, in leading up an agitation against Girouard's deceased wife's sister bill. He denounced it from the pulpit twice on Sunday, and called on all churchmen to sign petitions and use all their efforts against the bill.

Sir Leonard Tilley stated that there was $116,040 of fractional currency in circulation, $43,091 in the Receiver-General's office, and $172,500 in the vaults of the Department, and that the Government had taken steps to have coined $150,000 in five, ten and twenty-five cent pieces.

The Salvation Army.

NEW YORK, March 11.—Among the immigrants who arrived by the steamship Australia, from London, yesterday were eight persons, one man and seven women, dressed in a peculiar manner. They attracted much attention by their singing, prayers, and religious services while in Castle Garden. They said:—

We come here for the purpose of extending the work of the Salvation Army, and will make our headquarters in New York. The organization is an army of men and women mostly belonging to the working classes. Rev. Wm. Booth, formerly a Methodist minister, was led to establish the mission by noticing the immense multitudes in London that went to no place of worship, and for whose conversion no special efforts were made. He took a stand alone in the open air in the east end of London in July 1865, and on September 30th 1879, had enlisted 122 corps under command of 195 officers. These were using for services weekly 148 theatres, music halls, warehouses and other buildings, and were holding open air services at the rate of 45,000 annually; and indoor services at the rate of 60,000. They were 257 persons employed as officers, ministers, missionaries, colporteurs, and Bible women, and 3,256 others ready to do service at any time. Our work is not sectarian, since we seek those who have no religion, and our service is that of the early Methodists, so far as doctrine and principles are concerned, but our form of service is what might be called here an "experience meeting."

Newfoundland.

HALIFAX, March 5.—Francis Winton, editor of the St. John's *Chronicle*, has been appointed Financial Secretary of the colony. Mr. Winton has been one of the foremost champions of the anti-Confederate party in Newfoundland, and still holds strong opinions on that question. His entrance into the Government should set at rest all talk about Newfoundland entering the Union.

CUSTOM HOUSE BLANKS for Entry, Outwards, Nos. 48 and 48½, for sale in quantities to suit, at *The Colonist* Stationery Store. *

Various Causes—

Advancing years, care, sickness, disappointment and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYER'S HAIR VIGOR will restore faded or gray, light and red hair to a rich brown or deep black as may be desired. It softens and cleanses the scalp, giving it a healthy action and removes and cures dandruff and humora. By its use falling hair is checked and a new growth will be produced in all cases where the follicles are not destroyed or glands decayed. Its effects are beautifully shown on brashy, weak or sickly hair, to which a few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing and is especially valued for the soft lustre and richness of tone it imparts. It contains neither oil nor dye and will not soil or color white cambric, yet it lasts long on the hair and keeps it fresh and vigorous. For sale by all dealers. 3dw

The Death-rate of

Our country is getting to be fearfully alarming, the average of life being lessened every year, without any reasonable cause, death resulting generally from the most insignificant origin. At this season of the year especially, a cold is such a common thing that in the hurry of every day life we are apt to overlook the dangers attending it, and often find too late that a Fever or Lung trouble has already set in. Thousands lose their lives in this way every winter, while had *Boschee's German Syrup* been taken a cure would have resulted, and a large bill from a Doctor been avoided. For all diseases of the Throat and Lungs, *Boschee's German Syrup* has proven itself to be the greatest discovery of its kind in medicine. Every Druggist in this country will tell you of its wonderful effect. Over 950,000 bottles sold last year without a single failure known.

WHAT THEY SAY OF IT! A FEW FACTS FOR THE PEOPLE.—There are but few preparations of medicines which have withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Eclectric Oil. Read the following and be convinced:—Thomas Robinson, Farnham Centre, P. Q., writes "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Eclectric Oil and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Shefford, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Eclectric, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horse in cases of cuts, wounds, etc., and think it is equally as good for horses as for man."—A Maybee, Merchant, Warkworth, writes, "I have sold some hundreds of bottles of Eclectric Oil, and it is pronounced by the public "one of the best medicines ever used;" it has done wonders in healing and relieving pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Russa, Township Percy, writes, "I was persuaded to try Dr. Thomas' Eclectric Oil for a lame knee which troubled me for three or four years, and I never found anything like it for curing lameness. It is a great public benefit."

BEWARE OF IMITATIONS.—Ask for Dr. Thomas' Eclectric Oil. See that the signature of *S. N. Thomas* is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and *Take no other*. Sold by all medicine dealers. Price 25 cents. NORTHROP & LYMAN, Toronto, Ont., Proprietors for the Dominion.

WARNER'S SAFE KIDNEY & LIVER CURE

(Formerly "Dr. Craig's Kidney Cure.")

Is a Vegetable Preparation which is the *only cure remedy in the world for Bright's Disease and Diabetes*, and is equally effective in all Cases of Diseases of the Kidneys, Liver and Urinary Organs, and disorders caused by these.

Two compounds: For the cure of Diabetes call for **Safe Diabetes Cure**, and for the cure of Bright's and the other diseases call for **Safe Kidney and Liver Cure.** Price, $2.00 a Bottle.

TESTIMONIALS.

The Rev. J. E. RANKIN, D.D., of Washington, D. C., certifies that he has known of several "permanent cures of diseases of the Kidneys and urinary organs" by the use of the Safe Kidney and Liver Cure, and adds "I do not doubt that it has great virtue." D. W. BARTINE, M. D., D. D., of East Orange, N. J., certifies that it cured him of Bright's Disease in two weeks. Rev. C. A. HARVEY, D. D., Secretary of Howard University, certifies: "I am convinced that no remedy heretofore used or described can be held for one moment in comparison with this." E. W. NEFF, 102 Bagg Street, Detroit, Mich., certifies that it completely cured him of a chronic liver complaint after numerous other remedies had failed. These are abbreviated sample testimonials.

Prof. GREEN, an eminent allopathic physician of the South, recommended in the Medical Record that all physicians administer this remedy for Kidney Diseases in preference to any thing else. R. CAULKINS, M.D., of Rochester, N. Y., says he would prescribe the remedy to all whose Kidneys and Liver are badly affected. The Richmond and Louisville *Medical Journal* said it had done more for the cure of Kidney Diseases than any other remedy.

Warner's Safe Bitters, Safe Tonic, Safe Pills and **Safe Nervine** are also superior remedies, unequalled in their respective fields of disease.

Warner's Safe Remedies are sold by Druggists and Medicine Dealers generally throughout the country. Send for Pamphlet and Testimonials.

DR. SPINNEY & CO'S DISPENSARY,

No. 11 KEARNEY STREET, SAN FRANCISCO.

DR. SPINNEY, well known as the founder of the Montreal (C. E.) Medical Institute, and late Proprietor of the SPINNEYVILLE INFIRMARY would most respectfully inform his patients and the afflicted generally, that he still continues to treat chronic and nervous diseases with unparalleled success.

LADIES AND GENTLEMEN,

Remember that procrastination is the thief of time

COME AND BE HEALED!

It matters not what you troubles may be, come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourselves whether the Doctor understands your case. If he can cure you he will tell you so; if not, he will tell you that, for he will not undertake a case unless he is confident of effecting a cure.

Parties at a distance wishing treatment, by sending $25 and a minute description of their troubles will receive in return a full course of treatment securely packed so as not to excite curiosity.

DR. SPINNEY will guarantee to forfeit Five Hundred Dollars for every case of any kind or character which he undertakes and fails to cure.

P. S.—For diseases of short standing a full course of medicines, sufficient for a cure, with all instructions, will be sent to any address on receipt of $10.00. Call or Address

EDUCATION.

CLASSES FOR YOUNG LADIES HAVE BEEN commenced in the house situated on the corner of Kane and Quadra streets, by competent teachers, under the immediate supervision of the Rev. E. Cridge and Mrs. Cridge.

A class for boys under eight years of age has also been formed. For particulars apply to

my17 MRS. CRIDGE.

PATENTS

OBTAINED FOR MECHANICAL DEVICES, MEDICAL, OR OTHER COMPOUNDS, ORNAMENTAL DESIGNS, TRADE MARKS AND LABELS. Caveats, Assignments, Interferences, Infringements, and all matters relating to Patents promptly attended to.

INVENTIONS

THAT HAVE been rejected by the Patent Office may still, in most cases, be secured by us. Being opposite the Patent Office, we are able to make closer examinations, and secure Patents more promptly and with broader and better claims than those who are remote from Washington.

INVENTORS

SEND US A model or rough sketch and description of your device; we will make an examination, free of charge, and advise you as to its patentability. All correspondence strictly confidential. Prices as low as those of any reliable agency.

We refer to Officials in the Patent office, and to inventors in every State in the Union.
